Database

MySQL, Firestore

DevOps & Tools

Docker, AWS, Laravel Sail, GitLab, Bitbucket, CI/CD, PHPUnit

UI

MUI, Tailwind CSS, Bootstrap

Concepts

OOP, SOLID, REST APIs, CLEAN Architecture

WORK EXPERIENCE

Mid Software Engineer | Feb 2023-Present | Remote

Vananaz Technologies | Cebu City

- Led a small development team, conducting code reviews, delegating tasks, and ensuring adherence to engineering best practices and coding standards.
- Designed, developed, and maintained scalable applications using Node.js, React, and Laravel across multiple production systems.
- Made key technical decisions and provided solutions for complex or ambiguous requirements to ensure successful project delivery.
- Collaborated closely with stakeholders, PMs, QA engineers, and designers in an Agile/Scrum environment to deliver high-quality features.
- Owned major features end-to-end — from estimation and planning to deployment, monitoring, and maintenance.
- Mentored and guided JavaScript developers, providing technical direction, feedback, and deployment support.
- Debugged, optimized, and improved application performance, stability, and code maintainability.
- Proactively identified risks, resolved production issues, and continuously improved development processes, teamwork, and delivery efficiency.

Mid Full Stack Developer | Apr 2021 – Feb 2023 | Remote

ExpaDigital | Remote

- Developed and maintained multiple CRM web applications, designing RESTful APIs, integrating third-party services, collaborating with mobile developers, and delivering scalable business solutions.
- Owned the full software lifecycle — implementing automated testing, optimizing SQL performance, managing CI/CD pipelines, and leading deployments and production maintenance across systems.

Junior PHP Developer | Jun 2019 – Apr 2021 | Remote

Flexion Technology | Makati City

- Maintained and enhanced multiple Laravel-based applications, improving code quality, performance, and overall system stability through continuous refactoring and best practices.
- Collaborated directly with management by providing task estimates, technical feedback, and improvement recommendations while supporting the full software development lifecycle.

ICT Staff | Jul 2018 – May 2019 | On-site

Terumo Philippines Corporation | Laguna

- Supported QA, validation, SOPs, and risk assessments

ACADEMIC HISTORY

Laguna University | 2018

Bachelor of Science in Information Technology

High School

Masico National High School
